Some highlights of the first day of DCMUN 2021

The three day virtual DCMUN Junior Conference commenced at Daly College on April 19th, 2021 with the opening ceremony. Welcoming the delegates, Siddhant Jhawar, the Director General, took them on a virtual tour of the school's initiatives. The Principal, Mr. Neeraj Kumar Bedhotiya, said in his address, "It's not bullies or egos that win; it's your skillset and wise decisions that take you forward. It is not about getting points rather about lobbying to get what you want. Even the smallest of country has a role to play in an interdependent world. "

The chief guest, Mrs. Rutu Dave, co-founder of SPARSH, a charitable trust for animal and bird welfare, spoke about kindness and compassion towards animals and birds. Conclusion to the opening ceremony was the Secretary General, Pragun Gupta's address, after which he declared the conference open. The only thing being missed was the delicious samosas Daly College is famous for.

All India Political Parties Meet

Risha Chaurasia

The committee began with great fervor in the novice hearts of the delegates. Two blocs were evident, one supporting the bill and the other repealing it. Concerns over the removal of MSPs, and the constitutional validity of the laws were raised and heavily debated upon. The proceedings were soon disrupted by a crisis. Both blocs tackled it head on, with Rahul Gandhi deeming it a 'dirty conspiracy' by the BJP. The differences of the blocs remained throughout the sessions, making it hard to reach a consensus.

Social Humanitarian and Cultural Committee

Maanvi Singh Tomar

SOCHUM stands for the promotion of fundamental freedoms and the right to self-determination of groups of people vulnerable to discrimination

Arab-Israeli conflict. Various attempts have been made as part of the peace process but none have yet proved fruitful.

To quote the delegate of Yemen, "Why is there a division of borders on the basis of religion? What is the people's fault? Where is humanity?" With this the first session of SOCHUM commenced with the delegates excited to have a fruitful debate and formulate efficient policies to solve the decades old conflict. The delegates presented their country's stance - some supporting Palestine's freedom, some encouraging peace talks with others believing that each country should do a part in improving the situation rather than blaming others. Although the committee slightly derailed in the second session when it failed to pass motions

Disarmament and International Security Committee

Vanshika Sangla

The session began with all the delegates putting forth their stances, unanimously agreeing to the harmful effects of biowarfare. Important matters like the coronavirus; global threats of bioterrorism; various existent and future policies and treaties were thoroughly discussed. The crisis (a leak of lethal bioweapons in Nepal) certainly caused the delegates to rack their brains over a viable resolution with the delegates of the USA and India defending themselves, and other nations stepping up to aid the Nepalese government.

Even with the initial confusion between the delegates and the issues a virtual conference brings along, it would be an understatement to say that the committee went well. The day ended with the EB challenging all the delegates to “be ready for anything.”

United Nations Security Council

Aanya Kasliwal

As one of the most primal components of the United Nations, the UNSC plays a vital role in maintaining law and order globally. Members exercise their extensive power freely in accordance with each other to resolve international conflicts, one of these being our agenda- the current mayhem in Afghanistan. In 1978 due to the emergence of afghan communists, violent conflicts broke out between the country’s government and its mujahideen which resulted in several human- rights infringements. The situation continues to worsen due to terror attacks and the deadly global pandemic.

Commencing with a motion in the first few minutes, the committee dove straight into their agenda concerning Afghanistan’s deteriorating situation. Moving into a formal debating session, the committee broke into its first crisis regarding the Taliban militants attacking Charkh District leading to the United States of America covertly releasing more private troops. This was followed up with a series of caucuses before a groundbreaking update stating sniper rifles in limited service were identified in the hands of the Taliban members, implying that the Chinese military installments were aggravating the situation. The delegates attempted to resolve this crisis by a number of discussions and formal statements that brought up relevant points. Targeting China, United States made a riveting proposition to ease its veto power, ending the session on a cliffhanger.

The Tashkent Committee

Radhika Chaurasia

'Peace has no alternatives.' The committee of TTC began on this note with a zeal to win the young hearts of the delegates. Beginning with a quick briefing of the ROPs, the committee did not linger and started right off. The delegates had contrasting views and found it hard to reach a middle ground. Despite this, the negotiations and lobbying did not come to a halt. It was said war only destroys peace and these delegates had the responsibility of resolving a war. It was riveting to watch the youthful minds deliver thoroughly researched and opinionated speeches.

The Secretariat

Ayan Maheshwari
 Director General
 (Chair, DISEC)
 - Pianist, cricketer, tennis player and food enthusiast
 - Aspires to graduate from UC Berkeley as a chemical engineer
